EN 10204-2004 – 2.2 certificate

CUSTOMER : AKRO
FILTER ELEMENT SERIES : Proxis T

ELEMENT FEATURES

Scope:	filtration of water based liquids
Type:	disposable filter elements

MATERIALS

Filter media material:	polypropylene MELT-BLOWN (microfibre)
Absolute filter retention (beta=1000):	---------
Filter retention (beta=10):	1- 150 micron (eff. 90%)
Gasket material:	none
Cartridge configuration:	no end-caps
Gross filter area:	0.175 sq/mt

TEST PRIOR DESPATCHING

- visual check of the element during packaging
- test method: single pass
- contaminant: AC Fine Test Dust suspension in water
- fluid: water
- scope: evaluation of turbidity up and down-stream
- result: passed
- sampling: 1%

MATERIAL AND FDA COMPLIANCE

Proxis cartridge filters are made from thermally-welded blown microfibers of polypropylene. No additives, resin binders, lubricants, anti-static or release agents are used in the manufacturing of Proxis cartridge filters. Filterflo certifies that the filter material meets the requirements of the Food and Drug Administration (FDA) Title 21 of The Code of Federal Regulations 174.5 and 177.1520.
